HUSSAIN SHAIKH

Full Stack Software Engineer

+92 316 3779871 | +92 329 9374147 • hasif9570@gmail.com

PROFILE

Full Stack Developer with hands-on experience in C#, ASP.NET Core, Entity Framework Core, and modern web technologies (HTML, CSS, JavaScript). Skilled in designing and building efficient, user-friendly web applications backed by well-structured relational databases. Currently gaining professional experience on an international development team, with a strong focus on writing clean, maintainable code and continuously expanding technical expertise.

EXPERIENCE

Full Stack Developer *International Firm | Present*

- Contributing as a full stack developer on a distributed team, working across the front end and back end of live production applications.
- Applying C#, ASP.NET Core, and Entity Framework Core to build and maintain web application features.

Web Development Intern *Logical Technologist Software House | 2025*

- Completed a hands-on internship focused on practical web development, strengthening skills in HTML, CSS, JavaScript, and Bootstrap.
- Worked on real development tasks alongside experienced engineers, gaining exposure to professional coding standards and workflows.

Junior Developer *6 Months*

- Built foundational experience in software development, including working with databases and applying core programming concepts in real projects.

PROJECTS

Tetris *Python*

- Developed a physics-based Tetris game in Python, implementing collision detection, gravity, and line-clearing logic from scratch.

Show Time Hub *Figma Prototype*

- Designed a high-fidelity prototype for an online theatre booking application, mapping out core user flows for browsing and reserving shows.

Library Management System *HTML, CSS, PHP, MySQL (XAMPP)*

- Built a full web-based system for managing a library's book catalog, including borrow-request tracking and automated fine calculation.
- Designed the MySQL database schema and implemented the PHP back end to handle book inventory and transaction logic.

SKILLS

- Languages: C#, Python, JavaScript
- Frameworks: ASP.NET Core 6, Entity Framework Core, Bootstrap
- Web: HTML, CSS, JavaScript
- Databases: SQL Server, MySQL
- Tools: Microsoft Office

EDUCATION

Bachelor of Science in Software Engineering *Isra University | 2022 – 2026*

Pre-Engineering (Intermediate / FSc) *Beaconhouse College | 2019 – 2021*

CERTIFICATIONS

- DSA Project Completion — Isra University, 2024
